5/8" x 8 3/4"

MC-LAJ-8 \$9.98/sf

Oak Tahoe
5/8" x 8 3/4"

MC-TH-8 \$9.98/sf

Moldings

One Sided Reducer

Transition to carpeted areas. More common uses against solid objects such as sliding doors or other areas where common quarter round would not look proper. Vertical height flush reducer from material to other floor coverings such as vinyl.

Baby Threshold

Also used at sliding door areas. This is the most versatile trim piece we've found that can be adapted for floor coverings that have a slight vertical height difference.

T Molding

Used to transition one floor covering to another. Typically ceramic tile with the same vertical height.

Quarter Round

Installed after the floor against existing baseboard to allow proper expansion space.

Stair Nosing

Used for step construction when using plank or strip on stairs.
