### Environmentally Conscious

Alaska contains a minimum of 4% pre-consumer recycled content and is manufactured by Crossville® using proprietary processes. Crossville recycles nearly 12 million pounds of previously discarded filtrate and fired tile waste. In addition to its own fired waste recycling, Crossville also accepts and recycles reclaimed, previously installed tile through its Tile Take-Back™ program. For more information, visit [CrossvilleInc.com/green](http://CrossvilleInc.com/green).

### Recommended Use

Alaska is recommended for interior floors, walls, countertops, and exterior walls in both residential and commercial applications. Alaska is not recommended for exterior horizontal surfaces or exterior paving. If offset pattern is required for tiles 15 inches or longer, Crossville® recommends an offset of not greater than 33%. See [CrossvilleInc.com](http://CrossvilleInc.com) for detailed installation instructions.

### Wet area use Mosaics

Crossville® produces Alaska 2 x 2 and Polygon Mosaics with the Cross-Sheen finish. The AcuTest<sup>sm</sup> wet Dynamic COF of Alaska is 0.42 - 0.52. Their small 2 x 2 size ensures frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning. This information is provided so that customers may make a realistic and informed decision when comparing Alaska to other tile products in wet area environments, such as residential/commercial bathrooms, showers, and interior pool decks.

*Information listed here is subject to change. Please refer to [CrossvilleInc.com](http://CrossvilleInc.com) for the latest, most accurate information.*

### Care and Maintenance

Regular cleaning is the best way to keep Alaska tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville® products is available at [CrossvilleInc.com](http://CrossvilleInc.com).

### Hydrotect

Our porcelain tiles are available with Hydrotect. Crossville's revolutionary invisible coating harnesses the power of light, water, and oxygen to create the best defence against dirt and pollution. Whether indoors or out, floors and walls stay cleaner, providing a superior experience in any space. For complete details check our website at [CrossvilleInc.com](http://CrossvilleInc.com).

### CrossvilleInc.com

If you want a better idea of what Crossville tile would look like in a particular room setting, simply visit our website and click on Cross-Vision. This powerful software tool allows you to visualize different types of Crossville tile. In addition, you'll find comprehensive information about Crossville's entire portfolio of products. You can also learn about the latest styles and trends from industry experts, download detailed care and maintenance instructions for our various products, or browse electronic versions of Crossville's product brochures. So whether you need information about Crossville products or tile in general, please visit us at [CrossvilleInc.com](http://CrossvilleInc.com). Information listed here is subject to change.

### National Accounts

For over 20 years we have been offering Porcelain tile to commercial customers at National Accounts pricing programs with special discounts. The National Accounts department provides materials forecasting, sales support and samples.
