## Recommended Use

Java Joint is recommended for interior floors, walls, counter tops and exterior walls in both residential and commercial applications. **If offset pattern is required for tiles 18 inches or longer, Crossville® recommends an offset of not greater than 33%.** See [CrossvilleInc.com](http://CrossvilleInc.com) for detailed installation instructions.

## Environmentally Conscious

Java Joint contains a minimum of 4% pre-consumer recycled content and is manufactured by Crossville® using processes that recycle nearly 12 million pounds of previously discarded filtrate and fired tile waste. In addition to its own fired waste recycling, Crossville also accepts and recycles reclaimed, previously installed tile through its Tile Take-Back™ Program. For more information, visit [CrossvilleInc.com/green](http://CrossvilleInc.com/green).

## Care and Maintenance

Regular cleaning is the best way to keep Java Joint tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers are needed. More information regarding the care and maintenance of Crossville products is available at [CrossvilleInc.com](http://CrossvilleInc.com).
