# THREE SURFACE EFFECTS /

The polished finish brings out the luminosity of the tile and reproduces the slight unevenness of the original marble. Ideal for commercial spaces, the Matte finish is distinguished by excellent technical performance. The new Silk finish, on the other hand, gives ceramic tiles an unprecedented tactile sensation: a silky, soft effect that also reflects less light.

La finitura Lappata esalta la luminosità del fondo e riproduce le lievi irregolarità dei marmi di ispirazione. Ideale per spazi commerciali, la finitura Matt si distingue per le eccellenti prestazioni tecniche. La nuova finitura Silk, invece, conferisce una sensazione tattile inedita per la ceramica: un effetto setoso e morbido che si accompagna a una minor riflessione della luce.

La finition rodée renforce la luminosité de la base et reproduit les légères irrégularités du marbre d'inspiration. Idéale pour les espaces commerciaux, la finition Matt se distingue par ses excellentes performances techniques. La nouvelle finition Silk, en revanche, donne une sensation tactile sans précédent pour la céramique: un effet soyeux et doux qui s'accompagne d'une moindre réflexion de la lumière.

Die geläppte Ausführung verstärkt den Glanz des Hintergrunds und gibt die leichten Unregelmäßigkeiten des Inspirationsmarmors wieder. Die matte Ausführung ist ideal für Gewerberäume und zeichnet sich durch ihre hervorragenden technischen Leistungen aus. Die neue Silk-Ausführung vermittelt hingegen eine für Keramik beispiellose Tastempfindung – eine seidige, weiche Optik, die durch weniger Lichtreflexion gekennzeichnet ist.

El acabado lapado realza la luminosidad del fondo y reproduce las ligeras irregularidades del mármol de inspiración. Ideal para espacios comerciales, el acabado mate destaca por su excelente rendimiento técnico. En cambio el nuevo acabado Silk da una sensación táctil inaudita en la cerámica: un efecto suave y sedoso acompañado por una menor reflexión de la luz.

Лаппатированная подчеркивает яркость фона и воспроизводит легкие неровности, характерные для природного мрамора. Матовая, идеальная для коммерческих пространств, обладает отличными техническими характеристиками. Новая Silk дарит необыкновенно приятные тактильные ощущения, а ее мягкая шелковистость отличается также более мягким отражением света.

# TECHNOLOGY FOR BEAUTY /

With its exclusive technology, Marvel Shine offers the possibility to replicate the traditional book matched pattern of natural marble with 16 75x150 cm slabs to create compositions measuring 6x3 meters. Furthermore, the 120x278 cm and 160x320 cm formats offer a continuity of the veins from one slab to the next to reproduce the effect of a single block of marble.

Con una tecnologia esclusiva, Marvel Shine offre la possibilità di replicare la tipica posa a "macchia aperta" del marmo naturale con 16 lastre di formato 75x150 cm, per realizzare composizioni di 6x3 metri. Inoltre, i formati 120x278 cm e 160x320 cm presentano una continuità nel disegno delle venature tra una lastra e l'altra per ottenere l'effetto di un unico blocco di marmo.

Grâce à une technologie exclusive, Marvel Shine offre la possibilité de reproduire la pose typique "à tache ouverte" du marbre naturel avec 16 dalles de 75x150 cm, pour créer des compositions de 6x3 mètres. En outre, les formats 120x278 cm et 160x320 cm présentent une continuité dans le motif des veines entre une dalle et une autre pour obtenir l'effet d'un seul bloc de marbre.

Mit einer exklusiven Technologie bietet Marvel Shine die Möglichkeit, die typische Bookmark-Verlegung (Bildfundierte Verlegung) von Naturmarmor mit 16 Platten im Format 75x150 cm nachzubilden, um 6x3 m großen Kompositionen zu schaffen. Darüber hinaus weisen die Formate 120x278 cm und 160x320 cm eine Kontinuität im Muster der Äderungen zwischen den Platten auf, um die Optik eines einzelnen Marmorblocks zu erzielen.

Con una tecnología exclusiva, Marvel Shine ofrece la posibilidad de replicar la típica colocación «a mancha abierta» del mármol natural con 16 placas en formato 75x150 cm, para crear composiciones de 6x3 metros. Además, los formatos 120x278 cm y 160x320 cm tienen una continuidad en el patrón de las vetas entre una losa y otra para lograr el efecto de un bloque de mármol único.

Благодаря эксклюзивной технологии производства, Marvel Shine дает возможность воссоздавать большой симметричный рисунок укладки, типичный для природного мрамора: 16 плит формата 75x150 см складываются в композиции 6x3 метра. Кроме того, форматы 120x278 см и 160x320 см обеспечивают непрерывность прожилкового рисунка между одной плитой и другой, что создает эффект единого мраморного блока.

**Porcelain tiles: note on polished and silk finish / Gres porcellanato: nota sulla finitura lappata e silk**

Polished and silk finishes are recommended for low-stress residential or commercial floors where anti-slip performance is not required. The surface's shine and superior ease of cleaning are the result of in-depth studies and extensive technical research aimed at ensuring its durability over time. If the product is in direct contact with the outside, use moisture and dirt absorption devices to prevent scratches. / Le finiture lappata e silk sono indicate per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. La lucentezza e l'elevata facilità di pulizia della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e dello sporco per prevenire la formazione di graffi. / Les finitions rodée et soyeuse conviennent aux sols résidentiels ou commerciaux à faibles contraintes, où la performance antidérapante n'est pas requise. La brillance et la grande facilité de nettoyage de la surface sont le résultat d'études approfondies et de recherches techniques précises visant à assurer sa persistance dans le temps. Si le produit est en contact direct avec l'extérieur, prévoyez des dispositifs d'absorption de l'humidité et de la saleté pour éviter la formation de rayures. / Die Oberflächenversionen Geläpft und Silk eignen sich für Bodenbeläge in Wohnbereichen bzw. in gering beanspruchten Gewerberäumen, wenn keine Rutschfestigkeit erforderlich ist. Der Glanz und die einfache Reinigung der Oberfläche sind das Resultat eingehender technischer Studien, mit denen die langfristige Beständigkeit sichergestellt wurde. Kommt das Produkt direkt mit der externen Umgebung in Kontakt, so sind Feuchtigkeit und Schmutz mit geeigneten Mitteln aufzunehmen, um Kratzer zu vermeiden. / Los acabados lapeados y silk son adecuados para pavimentos residenciales y comerciales con poco tráfico, donde no se requiere un efecto antideslizante. El brillo y la gran facilidad de limpieza de la superficie son el resultado de profundos estudios e investigaciones técnicas precisas para asegurar su persistencia en el tiempo. Si el producto está en contacto directo con el exterior, proporcionar dispositivos de absorción de humedad y suciedad para evitar arañazos. / Лаппированная поверхность и поверхность Silk рекомендованы для полов жилых и коммерческих помещений с невысокой интенсивностью эксплуатации, в которых от покрытий не требуется характеристик сопротивления скольжению. Блеск и легкая очищаемость являются результатом глубоких исследований, направленных на создание долговечного материала. Если плитка находится в непосредственном контакте с наружной средой, необходимо предусмотреть устройства поглощения влаги и грязи во избежание образования царапин.

The collection allows creating an open vein measuring 6 m x 3 m (16 75x150 slabs) ideal for large rooms where you can enhance the entire interior design. The junction between the graphics that make up the open vein is not geometrically perfect but imitates the natural irregularity of the open veins of natural marble products. The code "polished open vein" corresponds to a pallet composed of 16 tiles in the 75x150 cm (8+8) format that make up the entire open vein. A number is printed on the edge of each tile (see laying diagram). / La collezione permette di creare una macchia aperta di dimensioni 6m x 3m (16 facce di 75x150) ideale per ambienti ampi nei quali poter valorizzare l'intera composizione. La giunzione tra le grafiche che compongono la macchia aperta non è geometricamente perfetta ma imita la naturale irregolarità delle macchie aperte dei prodotti in marmo naturale. Il codice "lappato macchia aperta" corrisponde ad un pallet composto da 16 piastrelle in formato 75cmx150cm (8+8) che compongono l'intera macchia aperta. Sulla costa di ciascuna piastrella è stampato il numero corrispondente (vedi schema di posa). / La collection permet de créer une tache ouverte de 6m x 3m (16 faces de 75x150) idéale pour les grandes pièces où l'on peut mettre en valeur l'ensemble de la composition. La jonction entre les graphismes qui composent la tache ouverte n'est pas géométriquement parfaite mais imite l'irrégularité naturelle des taches ouvertes des produits en marbre naturel. Le code "lappato macchia aperta" (tache ouverte rodée) correspond à une palette composée de 16 carreaux au format 75cmx150cm (8+8) qui constituent la totalité de la tache ouverte. Le numéro correspondant est imprimé sur le bord de chaque carreau (voir schéma de pose).

Die Kollektion erlaubt die Bildung einer Spiegeloptik mit den Abmessungen 6 m x 3 m (16 verschiedenen Oberflächen 75 x 150). Ideal in weitläufigen Räumen, in denen die Komposition optimal zur Geltung gebracht werden kann. Der Anschluss zwischen den einzelnen Grafikbildern, die den Spiegeleffekt bilden, ist geometrisch nicht perfekt, sondern empfindet die natürliche Unregelmäßigkeit der mit Naturmarmor erzielten Spiegeloptik nach. Die Artikelbezeichnung „geläpft gespiegelt“ entspricht einer Palette mit 16 Fliesen im Format 75 cm x 150 cm (8+8), die das gesamte, gespiegelte Motiv bilden. Jede Fliese ist an der Seite nummeriert (siehe Verlegeplan). / La colección permite crear una mancha abierta de 6m x 3m (16 caras de 75x150) ideal para ambientes amplios donde se puede realizar toda la composición. La unión entre los gráficos que componen la mancha abierta no es geométricamente perfecta, sino que imita la natural irregularidad de las manchas abiertas de los productos de mármol natural. El código «lapeado mancha abierta» corresponde a una paleta compuesta de 16 baldosas de formato 75cmx150cm (8+8) que componen toda la mancha abierta. El número correspondiente está impreso en el borde de cada baldosa (ver diagrama de colocación). / Коллекция позволяет создавать облицовку с симметричным зеркальным рисунком 6 м x 3 м (16 плит 75x150). Данная композиция максимально раскрывает свой потенциал в больших помещениях. Стык между плитами, которые образуют симметричный рисунок, не является геометрически совершенным, а имитирует естественную неровность аналогичных рисунков, составляемых из плит природного мрамора. Код «лапатированный с симметричным зеркальным рисунком» соответствует поддону, состоящему из 16 плит формата 75 см x 150 см (8+8), из которых складывается данный симметричный рисунок. На торце каждой из плит напечатан соответствующий номер (см. схему укладки).

## WALL TILES ADDITIONAL BENEFITS

PROPRIETÀ CERAMICA  
DA RIVESTIMENTO

### Ease of installation

Facilità di lavorazione

Cuts, holes, and bevels are easily made and reduce the time it takes to lay the white body tiles.

Tagli, fori, bisellature sono facili da realizzare e rendono più veloce la posa dei rivestimenti in pasta bianca.

### Extremely easy to clean

Estrema facilità di pulizia

White body ceramic tiles can be cleaned with a simple passage of hot water or neutral detergent.

I rivestimenti ceramici in pasta bianca si puliscono con un semplice passaggio di acqua calda o detergente neutro.

While porcelain tiles are ideal for use on the floor thanks to their hardness and extreme durability, the light weight and workability of white body tiles make them ideal for use on walls: cuts and holes can be made quickly and easily, reducing installation time and costs.

Mentre il gres porcellanato è ideale per l'uso a pavimento, per la sua durezza e l'estrema resistenza, le caratteristiche di leggerezza e lavorabilità del rivestimento in pasta bianca lo rendono ideale per l'uso a parete: i tagli e i fori saranno eseguiti facilmente e velocemente, riducendo i tempi e i costi di posa.
